"Before starting my course, I aimed to learn more about leadership styles and adapt them to real-life situations. However, after completing the training, I have learned much more. I am capable to monitor a team and my development, understand and adapt effective communication techniques in a team, understand how to lead a team and how to manage/avoid conflicts"

"I have learned not only from wonderful tutor Ruth but, also from other course members. Everyone shared their own experiences and gave real-life examples. There were some technical issues but they did not bother me, as they did not influence my work quality. Both, tutor Ruth and lead Char were helpful."

Thank you, Char, for making sure course were run smoothly and on time, as well as sharing your personal life examples."
